$\square$ Revision for the Earnings Forecast for the Full-year Term

## Revision for the Earnings Forecast for the Full-year Term

Sales

- Q3 : The net number of paying subscribers attributable to the reaction to the cash back campaign.
- Q4 : The number of new members is expected to be limited because consumers will hold off buying smartphones in anticipation of the launch of the iPhone in September.
Operating income / Ordinary income/ Net income
- Advertising expenses are also expected to be limited because the number of new members is expected to be limited.
- The non-virtual affiliate business will be steady.

| (Millions of yen) | Full- year Forecast |  | Difference |  |
| :---: | ---: | ---: | ---: | ---: |
|  | (Before the revision) | (After the revision) | Amount | Change(\% ) |

## What's "Affiliate"?

The term "affiliate" is a frequently used term in internet advertising. It is a system whereby if the introduction of a product or service on a website, such as a blog, is successful (e.g. a user purchases the product), the operator of the website receives a reward.

## What's "Non-virtual affiliate"?

Non-virtual affiliate is an internet advertising system as applied to cellphone shops as physical locations.
Under this system, cellphone shops encourage customers visiting them to subscribe to particular content, and if a customer actually subscribes to the content, the cellphone shop receives a reward.

## Business model -Content Distribution Business-
